

- 0.7 design
  - found summer 2007 as a social enterprise
  - earlier work experience in huge multinational companies
  - 0.7 design is an intermediate between Finnish designers and overseas retailers/distributors
    - there is clear need for services such as 0.7 design's
  - customers are at the moment in Japan, in the future also in Russia
    - how is Scandinavian design doing in Russia today?

Thank you! どうもありがとうございます。
